

OncoMineWorld 2021

A virtual NGS education meeting

April 29, 2021: Event Program Overview

Asia Pacific Live Session 1: 12:00pm -15:10pm SGT, 1:00-4:10 pm JST/KST, 9:30 am-12:40 pm IST, 2:00-5:10 pm AEST, 6:00- 9:10 am CEST, 5:00-8:10 am GMT+1

Introduction:

- Dr. Luca Quagliata, Medical Director, Thermo Fisher Scientific **12:00 - 12:05 pm SGT**

Part 1: General education in precision oncology

- Prof. Cristin Gregor Print, University of Auckland, *A clinical-research-industry collaboration to bring blood genomics to cancer patients in New Zealand* **12:05 - 12:25pm SGT**

Part 2: Driving the future of NGS IVD

- Dr. Garret Hampton, President, Clinical Next Generation Sequencing, Thermo Fisher Scientific **12:25 - 12:45 pm SGT**
- Q&A **12:45pm - 13:00 pm SGT**
- Break **13:00 - 13:15 pm SGT**

Part 3: Experiences with OncoPrint Solutions for clinical research

- Dr. Tony Lim, Associate Professor, Singapore General Hospital, *OncoPrint Comprehensive Assay Plus evaluation data*
13:15 - 13:35 pm SGT
- Dr. Neeraj Arora, Unipath Specialty Laboratory, *Data sharing on OncoPrint Myeloid Research Assay GX*
13:35-13:55pm SGT
- Q&A **13:55 - 14:10 pm SGT**
- Genexus System and Genexus Software Demo with live Q&A **14:10 - 14:40 pm SGT**

Europe/America's Session 2: 15:00 – 18:15 pm CEST

Introduction:

- Dr. Luca Quagliata, Medical Director, Thermo Fisher Scientific **15:00 - 15:05 pm CEST**

Part 1: Experiences with OncoPrint Solutions for clinical research

- Dr. Nicola Normanno, Director of the Cell Biology and Biotherapy Unit and Translational Research Department, National Cancer Institute—Fondazione G. Pascale, Naples: *The value of the Genexus System in pathology extended for use in SARS-CoV-2 sequencing* **15:05 - 15:25pm CEST**
- Dr. Artur Kowalik, Head of Department of Molecular Diagnostics, Holycross Cancer Center: *Working towards using Genexus for OPA and BRCA* **15:25 - 15:45 pm CEST**
- Q&A **15:45 - 16:00 pm CEST**
- Break **16:00 - 16:15 pm PT**

Part 2: Experiences with OncoPrint Solutions for clinical research

- Prof. Andreas Jung, University Hospital Munich, *Comprehensive Genomic Profiling for Homologous Recombination Repair Deficiency (HRD) Assessment TBD* **16:15 - 16:35 pm CEST**
- Dr. Lihui Wang, Department of Haematology Royal Liverpool University Hospital, *Haematological malignancy samples molecular characterization—in a NGS way* **16:35 - 16:55 pm CEST**
- Q&A **16:55 - 17:10 CEST**
- Genexus System and Genexus Software Demo and live Q&A **17:10 - 17:40 pm CEST**

America's Live Session 3: 12:00pm – 14:40 pm PT

Introduction:

- Dr. Luca Quagliata, Medical Director, Thermo Fisher Scientific **12:00 - 12:05 pm PT**

Part 1: General education in precision oncology

- Dr. Brandon Sheffield, Lead of Research | William Osler Health System, *Point of care NGS in community practice*
12:05 - 12:25 pm PT

Part 2: Driving the future of NGS IVD

- Dr. Garret Hampton, President, Clinical Next Generation Sequencing, Thermo Fisher Scientific **12:25 - 12:45**
- Q&A **12:45 am - 13:00 pm PT**
- Break **13:00 - 13:15 pm PT**

Part 3: Experiences with OncoPrint Solutions for clinical research

- Dr. Xia Li, Scientific Medical Director, Sonora Quest: *OncoPrint Reporter: functionalities and experience*
13:15 - 13:35 pm PT
- Dr. Leomar Ballester, University of Texas Health, *Experience with OncoPrint Precision Assay on Genexus System*
13:35 - 13:55 pm PT
- Q&A **13:55 - 14:10 pm PT**
- Genexus System and Genexus Software Demo and live Q&A **14:10 - 14:40 pm PT**
